

# “Ahoy, there mateys”

**Yellow room** have developed a strong interest in **Pirates**. This week, we made **telescopes** and **pirate hats** to enhance their imaginative play in the pirate role-play area. The children designed and chose how they would like to create their telescopes. Some children chose to use paint and collage materials.

The children really enjoyed wearing their hats with the pirate role-play clothes and using the telescope to search for hidden treasure. To link in Mathematics, the children have been helping the pirates count their treasure and match the quantities to the correct numbers.

Jazarah "We are searching for treasure. The telescope helps us to see".

Jaylen "I find treasure coins, there was 10"

Jazarah : "Shiver me timbers"

Mila-Ella- "I'm an angry pirate"

Zamar was independently singing the Pirate song as he explored the pirate role-play area.
