

Brearley Growing Garden in Yellow Room– Mother's Day

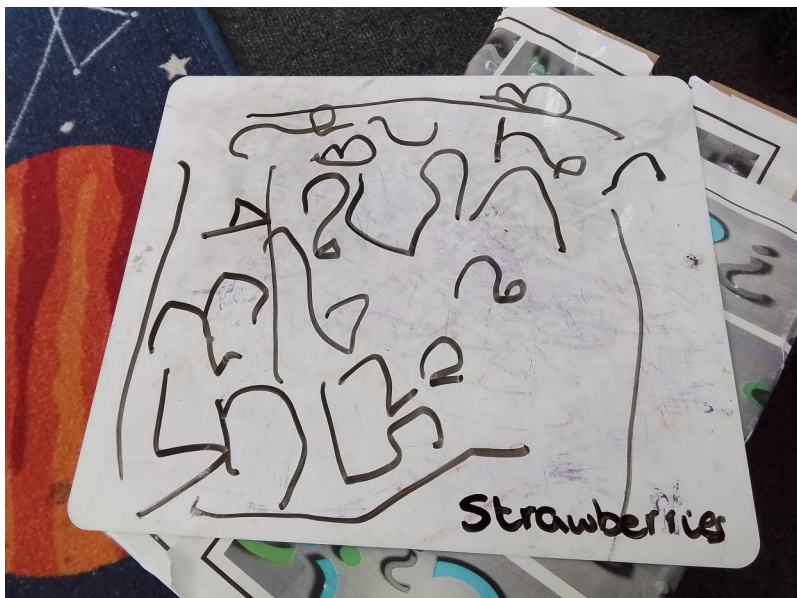

This week we have started planting different seeds. The children took it in turns to place soil into cups using spades. The children then sprinkled some lettuce seeds into the soil and using their finger gently swirling the soil around. We then watered them daily and observed to see their progress. These lettuce seeds we have planted are a gift to our Mothers to celebrate Mother's Day.

Jazarah: "You need the sun and water to make them grow"

Aizah: "They are lettuce seeds"

Ali "small seeds"

"The Tiger would like to eat strawberries and raspberries. I'm going to write it for him"

Arielle

"I think the Tiger needs to eat potatoes. I like potatoes. It starts with p and there is a t in there".

Beatiel
