

Aww so cute!

They're so smooth!

She's holding the baby!

Birmingham Wildlife Conservation Park

On Thursday 16th April, the children went on an exciting trip to the **Birmingham Wildlife Conservation Park**. It was a wonderful day full of discovery, curiosity, and lots of amazing animals!

The children met many furry friends, including the magnificent European lynx, playful monkeys, curious lemurs, squirrel monkeys, bouncy wallabies, and graceful antelopes.

They also spotted beautiful birds, such as the striking blue crane, along with a variety of other colourful and exotic birds.

Inside the reptile house, the children were fascinated by incredible creatures like lizards, snakes, and even a dragon-like reptile!

Although we were very excited to see the red pandas and tortoises, they were keeping warm and were not outside because of the cold weather.

It was a fantastic day filled with learning, exploration, and lots of smiles. The children showed great enthusiasm and curiosity throughout the trip, making it a truly memorable experience for everyone!
