

What will your child learn at nursery?

When your child arrives he/she will find a variety of activities available. Having greeted the staff he/she can choose to join in with any of these. Please help your child to make this choice if necessary - we welcome your interest and involvement.

Your child will have the opportunity to explore the following activities:

Painting, drawing, cutting out, model making, cooking, imaginative play, woodwork, collage making, investigating sand and water, printing, computing, talking, listening, mark making, sharing books, listening to stories, mathematical games, music, drama, memory games, sorting, counting, scientific exploration, discovery.....and much more!

The school is staffed by qualified teachers, nursery nurses, language support assistants, and support staff who work together as a team. During the year your child will have many opportunities to work with artists, musicians, go on trips and have fun!
